### Peter Lewis says

- I've enjoyed working in partnership with everyone. Together we must take ownership of our community in a spirit of lively yet critical collaboration.
- I'll strive to deliver our promises, and provide excellent services despite economic constraints. Nobody will be ignored because it's 'inconvenient'. We'll use your taxes wisely, strive for value for money, yet offer compassionate service.
- We **don't** want massive housing sprawl. We **don't** want indiscriminate parking. We **do** want safe streets. We **do** want community libraries, sports grounds, woodlands and fields. We **do** want Loughborough to bloom. I've worked hard with you all for the Charnwood Forest Regional Park, to ensure our Outwoods lie within its boundaries.
- I promised in 2005 we'd build a new Special School. That started last November! Many schools are now Academies, others remain with the Authority. Notwithstanding that, we still work together for our children's betterment, I stand by the ideal of ours being an inclusive education community – from infant school through college and university.

**My strength and determination to work hard remain undiminished.**
